

## Decorating Tips & Tricks – Spring Makeover

Winter

Spring

I don't know about you, but by the end of winter, I get the "decorating bug". A new spring season invites changes to your home with fresh spring decorating. Assuming you are like me and would like a room facelift on a tiny budget, here is what I did this weekend with my family room.

Jewel tones and metallics are big colour trends this year. You see them in fabrics, accessories and even paint colours. I decided to incorporate the palette in my own home. Out with my convenient black and white theme, hello a little bit of colour!

I simply replaced the black throw and decorative pillows with some silky aqua blue and metallic ones, coordinated vases and a figurine on the mantle, fresh flowers, definitely fresh flowers, and just a hint of black that helps to tie the room together and voila... a new spring look achieved on a very small budget. You don't have to break the bank. Re-locate and re-use pieces that you already have and buy just a piece or two that will add the pizzazz. Enjoy your newly decorated home.
