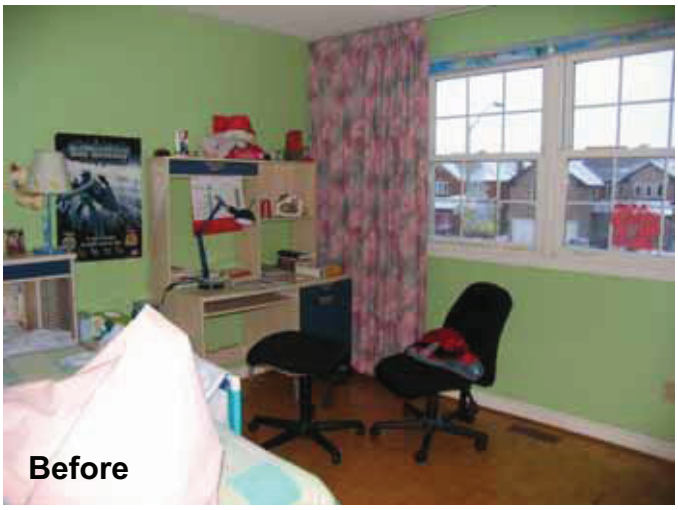
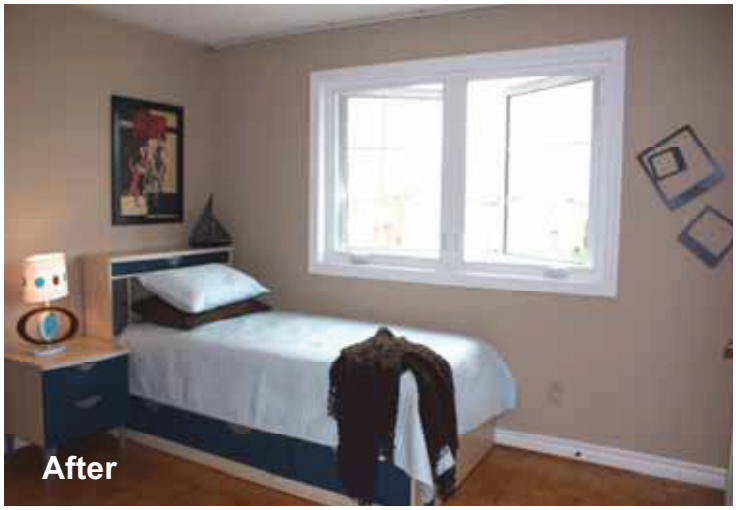
Organize Your Life – Redesign Your Son's Bedroom





Part 2 of Today's Decorating - Simple & *Elegant*

It's hard to believe these two photos are the same room (photos provided by ZOEIT INC.) Fewer colours and softer tones make the new look a lot more relaxing and fewer items on the walls eliminate that cluttered look. The writing desk has been relocated to the other side of the room allowing the bed to be placed in front of the window for plenty of fresh air while sleeping. When creating your new design, just remember to "keep it simple."
